

August 1, 2018

Dear Parents, Guardians and Students,

Lampeter-Strasburg High School is proud to inform you that we will be implementing a one-to-one technology integration initiative using Chromebooks for the 2018-2019 school year. All students will have the ability to use their Chromebooks at school and at home. As a result of this initiative, we believe that students will:

- effectively utilize technology to enhance learning and achievement
- use online content, the internet, and technology applications to learn at higher levels
- use critical thinking skills to collaborate, plan and conduct research, problem solve, and manage projects
- understand and practice legal and ethical behavior related to technology

This initiative is very exciting as it will dramatically change the way our students learn and our teachers present lessons. Additional important information will be available on the first day of school. Additionally, a parent night will be held to present expectations, provide additional information, and answer questions related to this initiative. A parent meeting has been scheduled on the following date/time:

Thursday, August 16, 2018, at 6:00 p.m.

We are very excited for this opportunity to provide our students a learning environment that embraces technology as a learning tool. If you have any questions at this point, please do not hesitate to contact me.

Sincerely,

Benjamin J. Feeney, Ed.D.  
Principal
