ENTRANCE TO KINDERGARTEN

The elementary teachers and administrators of the Lampeter-Strasburg School District have found that a child who enters kindergarten when he/she is five years of age has a good chance of achieving academic and social success in school. Conversely, a child who enters kindergarten at a younger age is frequently overplaced and is made to struggle in school year after year.

To give each child the best opportunity for success in school, the Lampeter-Strasburg School District adopted the following policy as concerns entrance to kindergarten to become effective with the 2011-12 school year:

A child may enter kindergarten in September providing:

1. He/she becomes five years of age on or before September 1 of that year, and
2. Has completed the District's transition/registration requirements.
