Strasburg Borough

16. Feister Farm - Between North Jackson Street and North Decatur Street

Owned by Glenn Eshleman. No plans currently exist to develop this property.

17. Strasburg Commons - Formerly Historic Strasburg

An adult community (55+) of 106 units. Being developed by Charter Homes. The first phase is 42 units, and 7 remain to be completed.

The second phase is 64 units, and 46 remain to be completed

18. Trails 2 - An extension of Sunset Avenue

Six homes have now received final approval.

Potential number of homes at this time in Strasburg Borough is 59.

Strasburg Township

19. The municipality normally averages six to seven new homes per year. Six homes were built in the past year.

20. There is potential for development of a 10-acre tract at Hartman Bridge and Herr Roads. This development would include both commercial and a possible 100-unit residential component; however, the development of this property is at least one year in the future.

Potential number of homes for the next year in Strasburg Township is 7-10.

SUMMARY OF PROJECTED NEW HOMES

Several extrapolations can be drawn from the data on the previous pages. These projections are conjecture based upon these plans and past experience.

1. There are approximately **914** units planned for West Lampeter Township in the next several years.
2. There are approximately **59** units planned for Strasburg Borough
3. The municipality has averaged less than **10** new homes each year for the last 10 years.

Summary

A total of **983** homes are potential for the next few years depending upon many factors including the economy and the sewer moratorium. The breakdown by municipality for these potential homes is as follows:

Strasburg Borough	59
Strasburg Township	10
West Lampeter Township	914 *

* includes 5 non-development homes annually

Presently, we average **.316** children per household that attend public school. If the home school, tutor, and cyber school students (132) and private/parochial students (669) are included in the calculation, the average household contains .399 school-age children. If Willow Valley's households (1,543) were excluded, each household averages .475 school-age children. If this ratio continues and if all units are built, this would be an increase of approximately 289 school-age children residing in the District.

Our students come from approximately 2,009 different addresses (households). This means that approximately 20.9% of our households have students in school. If Willow Valley is subtracted, the percent of our households that have students in school is approximately 24.9%.

BUILDING CAPACITIES AND IMPLICATIONS

<u>BUILDING</u>	<u>STUDENT CAPACITY</u>
Lampeter Elementary School	525 *
Hans Herr Elementary School	776 *
Martin Meylin Middle School	822
Lampeter-Strasburg High School	<u>1,218</u>
 Total Building Capacity	 3,341 *

* Elementary capacities are based upon 20 students per kindergarten and first grade, 23 students per second and third grade, and 25 students per fourth and fifth grade. It should be noted that a number of current classrooms have two to three more students than the capacity listed. It is also important to note that only one half of our kindergarten students are in Lampeter Elementary School at any given time.

Numbers of students in District buildings do not accurately reflect the number of students who are receiving their education in District buildings because some students attend the Lancaster County Career and Technology Center, Lancaster County Academy, Lancaster Lebanon Virtual Solutions, or other appropriate placements located outside the District. The number of District secondary students currently being educated for either full or partial days outside the District is 88, while the number of elementary students is 24.

Growth Time Line

The closing of Strasburg Elementary School in 2013 transitioned all K-2 students to Lampeter Elementary School. With this transition, the following statements are true:

1. All buildings are presently within capacity limits.
2. With projections based upon live births, it appears that all buildings will remain within capacity limits for the foreseeable future.
3. All buildings are being properly maintained and remain in very good condition.

It is, however, important to remember that enrollment numbers are based on projections. The further into the future that the one extends, the less reliable the projections become.
