

# Home & School CONNECTION<sup>®</sup>

Working Together for School Success

November 2019

Lampeter Elementary School  
Dr. William M. Bray, Principal

## SHORT NOTES

### Promises matter

Before you promise your child something—for instance, that you'll take him to the playground—make sure you'll be able to follow through. This teaches him that he can count on you, and he'll learn to keep promises, too. *Tip:* If needed, include contingencies. ("We'll go as long as it's not raining.")

### Speak up about allergies

Family gatherings are good opportunities for your youngster to speak up about food allergies, whether she has one herself or is being considerate of others. She might ask the host if a casserole contains eggs or tell a cousin who's allergic to dairy that there's milk in the mashed potatoes.

### Boost working memory

This activity improves your child's working (or short-term) memory. Have him close his eyes while you draw three emojis (cupcake, sun, leaf). Let him study the paper for five seconds, flip it over, and try to name the emojis. Repeat the activity, adding one more each time. How many can he remember?

### Worth quoting

"When you see someone without a smile, give them one of yours."  
Zig Ziglar

## JUST FOR FUN

**Q:** What's black and white and black and white and black and white?

**A:** A penguin rolling down a hill.

## An atmosphere of learning

When families create a supportive learning environment at home, children are more successful in the classroom. Use these tips to make your home a great place for your youngster to learn.

### Stock up

Fill your house with items your child can use to explore and investigate. Visit the library regularly so you always have plenty of books. Have her set aside a drawer for math and science supplies (ruler, measuring cups and spoons, food coloring, seeds). Also, display a map or globe—when she reads or hears about a place, she can discover where it's located.

### Build on interests

Notice what your youngster is into, such as dinosaurs or music, and help her learn more about it. Read nonfiction books or watch documentaries together. Let her make a hallway gallery based on her interests. She could create and hang up posters to share interesting facts and photos with family members.

### Learn together

Learn something new as a family. You might work on American Sign Language and then practice together. Or learn to code or knit. You'll enjoy a new hobby as you expand your knowledge. Also, plan special nights where you play board games. Try ones that build language skills (Scrabble, Boggle) or involve math or logic (Monopoly, chess).♥

## I'm thankful for...

What is your family grateful for? Try this idea to find out—and teach your child about gratitude.

**Pick categories.** Choose six crayons, and assign each color a category. *Example:* red = person, blue = place, green = object, yellow = food, orange = animal, purple = your choice. Place the crayons in a bowl, and give each person a sheet of paper.

**Draw and write.** Take turns selecting a crayon, drawing a heart on your paper, and writing something you're grateful for that matches the category. Your youngster might write "My Aunt Amy" in red and "Macaroni and cheese" in yellow.

**Share.** Once everyone has a heart of every color, read what's in your "hearts" to each other. Display the papers for a nice reminder to be grateful all year long!♥
